

I Will Always Love You

(Parts may rhyme with “**Fernando**” by Abba)

I will always love you,
Even if the day should come
When we feel like strangers;
I will always, always love you,
You don't have to remind me,
I know about the dangers....

Any day we could be pulled apart,
But you will always have my heart,
And I will always love you....

I will always love you....
How can I ever forget
The fire that you stirred inside of me?
I will always, always love you,
I have loved you from the day we met
And I will love you endlessly.....

If life should play some cruel game,
If nothing else will stay the same,
Still I will always love you!

(“I Will Always Love You”.....continued)

CHORUS:

I remember that sweet summer day,
When we met and history was made, my love....
There were fireworks that filled the sky,
For you and I, my love....
I never thought that we would part
But the best is yet to come

Our future will be very bright, it seems,
Filled with joy and dreams, my love.

I will always love you....
Even if your love for me
Should one day fade to memory....
Even if my star should rise
And yours should fall to misery....
I will find a way to love you....
I will love you endlessly!

Repeat CHORUS:
